

# Scouting Risk Assessment – WORKING AT HEIGHT (inside building)

<b>Date of risk assessment</b>	15/2/25	<b>Name/Role of who undertook this risk assessment</b>	Derek Salter Health & Safety Director
--------------------------------	---------	--	---------------------------------------

Earleywood Scout Campsite

Hazard Identified? / Risks from it?	Who is at risk?	How are the risks already controlled? What extra controls are needed?	What has changed that needs to be thought about and controlled?
<p><i><b>Hazard</b> – something that may cause harm or damage.</i></p> <p><i><b>Risk</b> – the chance of it happening.</i></p>	<p><i>Young people, Leaders, Visitors.</i></p>	<p><i><b>Controls</b> – Ways of making the activity safer by removing or reducing the risk from it.</i></p> <p><i>For example - you might use a different piece of equipment or you might change the way the activity is carried out.</i></p>	<p><i>Keep <b>checking</b> throughout the activity in case you need to change it...or even <b>stop</b> it! This is a great place to add comments which will be used as part of the review.</i></p>
<p>Use of incorrect equipment (desk, chairs etc). Falls, falling objects</p>	<p>Volunteers Leaders Visitors Staff Young People</p>	<ul style="list-style-type: none"> <li>• Instructions given not to use makeshift steps (chairs/ tables etc)</li> <li>• Restrict displays to head height where practical</li> <li>• Ensure display boards are accessible</li> <li>• Kick stool/ladders provided for users to access areas safely</li> <li>• No lone working when using ladders over 1m high from floor level</li> </ul>	
<p>Defective equipment. Falls, falling objects</p>	<p>Volunteers Leaders Visitors Staff Young People</p>	<ul style="list-style-type: none"> <li>• All access equipment suitable for purpose, checked before use and maintained in good condition.</li> <li>• Reporting procedure in place for identified defective items with prompt removal /remedial action.</li> </ul>	
<p>Inappropriate use of access equipment. Overreaching, stretching etc. Uneven floor causing instability Falls, falling objects</p>	<p>Volunteers Leaders Visitors Staff Young People</p>	<ul style="list-style-type: none"> <li>• Prepare works as far as possible before accessing area.</li> <li>• Use of access equipment restricted to those trained and competent in use.</li> <li>• Re-position access equipment rather than overstretch.</li> <li>• Floor surfaces suitable to access equipment (firm and even surface)</li> <li>• Persons using access equipment to wear appropriate footwear (low heeled, non-slip soles)</li> <li>• Do not leave unattended to avoid unauthorised use.</li> </ul>	
<p>Persons colliding access equipment (e.g. ladder) Falls / falling objects</p>	<p>Volunteers Leaders Visitors Staff Young People</p>	<ul style="list-style-type: none"> <li>• Segregate work area</li> <li>• Provide warning signs, cones etc. if needed.</li> </ul>

## Scouting Risk Assessment – WORKING AT HEIGHT (inside building)

21/2/21	Derek	Source for guidance	<a href="https://www.hse.gov.uk/toolbox/height.htm">https://www.hse.gov.uk/toolbox/height.htm</a> <a href="https://www.hse.gov.uk/work-at-height/index.htm">https://www.hse.gov.uk/work-at-height/index.htm</a>	
21/2/21	Graeme	My only suggestion is that when working at heights indoors of greater than say 1m, then someone else should be present or nearby. So if a person were to fall from the top of a step ladder, then there was another person on hand to provide assistance.		
1/12/23	Derek S	Reviewed no changes		None
